

# Opioid Prescribing Review for the Experienced Provider

---

This learning pathway contains advanced opioid prescribing training and tools, including risk assessment for substance use disorder, advanced opioid conversions, and managing side effects.

## **Course 3: Patient Factors that Influence Prescribing Decisions**

Patient and family factors that influence prescribing decisions for patients with serious illness.

## **Course 4: Assessing Risk for Opioid Substance Use Disorder**

Integrating routine risk assessment for substance use disorder when considering or using opioid therapy.

## **Course 8: Monitoring for Opioid Efficacy, Side Effects, and Substance Use Disorder**

Ongoing evaluation of opioid benefits, risks, and side effects for the patient with serious illness.

## **Course 11: Advanced Conversions and Opioid Side Effects**

Changing the route of opioid delivery, rotating opioids, advanced opioid conversions, and tapering opioids.

## **Course 13: Managing Pain in Patients At Risk for Substance Use Disorder**

Pain management for patients with serious illness and high risk for substance use disorder, including risk assessment, monitoring, and when to refer for safe pain management.

## **Course 14: Pain Management: Putting it All Together**

Safe opioid prescribing for patients with serious illness, using the Federation of State Medical Boards (FSMB) Guidelines for the Chronic Use of Opioid Analgesics.

## **Prescribing Opioids: A Pocket Reference**

Opioid pocket reference for providers including safe starting doses, equianalgesic chart, and standard dosing strengths.
